

# TRIBOS FACT SHEET

## TRIBOS® FABRIC PROTECTION

Tribos Fabric Protector is a high performing hydrophobic barrier for interior vehicle fabrics and upholstery. Engineered to resist most liquids and staining solids, Tribos Fabric Protection affords you extra time to clean everyday spills and stop stains becoming permanent and damaging appearance.

By forming an invisible barrier, Tribos Fabric Protector repels water-based liquids such as soft drinks, tea and coffee and helps protect against stains. The product does not alter the look, feel or breathability of the upholstery or carpets.

Once the surface is cleaned, ensuring that the fabric is free from any moisture, dirt or contaminants, an even coating of Tribos Fabric Protector is sprayed over the surface in horizontal lines. It is then allowed to dry and then the product is reapplied in vertical lines to ensure total coverage.

The fabric is allowed to cure for a minimum of 2 hours leaving it stain resistant and looking better for longer.

THE PRESERVATION OF PERFECTION

## **TRIBOS® Aftercare Guide and Warranty Information for Fabric Protector**

Once our professional application team have applied the Fabric Protector, the aftercare process is easy.

### **First 4 Hours**

This is the curing period, and where possible we recommend that the treated surface is not touched or disturbed so as to allow complete curing to take place.

Do not touch the treated surface

Keep the vehicle dry

### **Next 12 Months**

Vacuum clean your upholstery regularly.

### **Important Tips and Advice**

If a spillage occurs take care to mop up as soon as safely possible. The longer the delay the more a stain will establish itself

### **Warranty Information**

The product, when applied by our own trained personnel or anyone licensed to act on our behalf, on a surface that is acceptable to us, and is maintained in accordance with our recommendations, will assist in delaying spills from being absorbed into the upholstery fabric.
